

providing logistic solutions

Olympia Moving & Storage understands and knows how to integrate products, services, information, and finances among multiple offices or parties. See the results of timely solutions that are tailored to meet the unique needs of your project.

From raw materials acquisition to finished goods delivery, we can set up and coordinate a network to help manage the logistics for you. Building finished goods solutions in a multi-supplier environment is an Olympia specialty.

Our full services include:

- Inventory management/warehousing
- Shipping status visibility
- Consolidation and distribution
- Reverse logistics (returns)
- Reclamation and disposal
- Quality control
- Packing and shipment preparation
- Customized reporting and measurements
